

## **C-NRPP Communications Brief: September 23, 2016**

### **C-NRPP Mandatory Insurance Requirements for C-NRPP Certified Mitigators**

As part of developing quality standards for the Canadian radon industry, C-NRPP is now requiring that all certified mitigators obtain insurance before they are granted certification for mitigation.

C-NRPP is introducing a requirement that all certified mitigation professionals must have liability insurance coverage effective September 30 for new applications and for all renewals starting January 1, 2017.

The requirement:

Certification Requirements – Mandatory Insurance

Coverage should include:

- \$ 2 million Commercial General Liability
- \$ 2 million Radon Measurement and Mitigation Errors and Omissions

Individuals may also want to consider additional coverage such as critical injury insurance, pollution coverage and personal property insurance. You can obtain coverage through your own insurance package or add to an existing package. You can contact C-NRPP or CARST for information on insurance providers who are currently providing this for others.

Requirements will be:

As part of the Renewal Application and the *Steps for Certification*, before a mitigator will be renewed or approved for new certification, they must provide C-NRPP with proof of insurance coverage through a Certification of Insurance stating:

- Date coverage is bound
- Confirmation of insurance coverage including all above limits have been met or exceeded

For new applications between September 30, 2016 and December 31, 2016, they will have until January 1, 2017 to provide proof of insurance coverage.
